**Attachment to Advisory**

**Continuation of box 3:** The amendments filed on 11/14/2011 further limit independent claims 103 and 109, to, "a human subject suffering from metastatic melanoma." Independent claims 115 and 124 have been amended to require, "a cancer therapy combination of dacarbazine, cisplatin, vinblastine, interferon alpha-2b and II-2" and comparison to "a subject suffering from Stage IV melanoma." These new limitations further limit the scope of the claims and thus require further search and consideration because the claims now require additional elements.

MPEP 714.13 states, " It should be kept in mind that applicant cannot, as a matter of right, amend any finally rejected claims, add new claims after a final rejection (see 37 CFR 1.116) or reinstate previously canceled claims. Except where an amendment merely cancels claims, adopts examiner suggestions, removes issues for appeal, or in some other way requires only a cursory review by the examiner, compliance with the requirement of a showing under 37 CFR 1.116(b)(3) is expected in all amendments after final rejection."

Further, "Stage IV" is capitalized and is not a proper noun and thus raises new issues.

**Continuation of box 11:**

The request for reconsideration has been considered but does not place the application in condition for allowance for the reasons of record in view of the non-entry of the after final amendment.

In view of the non-entry of the amendment the objection to the drawings is maintained.

In view of the interview the enablement with respect to LOH in the normal or control sample has been withdrawn. However, in view of the non-entry of the amendment other issues are not overcome.

In view of the non-entry of the amendment the 103 rejections are maintained.

Applicants remaining arguments refer to the amended claims and rely solely on the amendments. The applicant provided no further arguments not already considered. Since the arguments were not entered, the arguments are moot. Therefore the arguments drawn to the after final amendments have not been considered.

### **Conclusions**
